Bill Summary

Philip Alexander
1423 Popes-Creek Dr
Hampstead, MD 21074
Account # 9947981303
Issued Date: May 10, 2023

Previous Balance	\$142.66
Payments Received May 1, 2023	-\$142.66
BGE Outstanding Balance	\$0.00
Electric	\$88.26
Total amount due by June 2, 2023	\$88.26

Payment received after June 2, 2023 will incur a late charge.

A late payment charge is applied to the unpaid balance of your BGE charges. The charge is up to 1.5% for the first month; additional charges will be assessed on unpaid balances past the first month, not to exceed 5%.

The amounts shown in the circles reflect charges from this bill period.

Asian American & Pacific Islander Heritage Month

May is Asian American and Pacific Islander (AAPI) Heritage Month, designated by Congress in 1992 as a time to commemorate the immigration of the first Japanese to the U.S. on May 7, 1843. The AAPI community includes people with ancestry from a wide range of countries, including China, Japan, Korea, the Philippines, Vietnam, Cambodia, Laos, Thailand, India, Pakistan, Bangladesh and many Pacific Island nations. From pioneering advancements in science and technology to creating some of the most beloved works of art, this group has made significant contributions to American society and culture.

Here comes the savings

Spring means the chance to earn bill credits for using less energy. Your participation helps keep down the overall cost of electricity and eases the burden on Maryland's electricity delivery system. Learn more at bge.com/SmartEnergyRewards.

Boater safety

National Safe Boating Week is scheduled each year as the first full week before Memorial Day weekend. Please remain safe this season with these helpful power line safety tips for boaters:

Be sure to avoid power lines when you are towing or storing your boat. Before your trip, make sure you know exactly how much overhead space your boat requires. Look up before you launch and use a spotter to make sure your boat clears any obstacles, including overhead power lines. Even on land, your boat can get caught in overhead power lines. Check the clearances listed on nautical charts as you approach any overhead power lines. Don't forget to add the extended height of any mast-mounted equipment or antennas. Check the clearances before you raise or lower your mast. Approach all overhead power lines with caution, and make sure flags and antennas are folded down. Look for warning signs that indicate underwater electrical cables and never anchor your boat near them.

Make sure your HVAC unit is ready for summer

Summer is right around the corner. Before temperatures rise, schedule an HVAC Tune-up at no additional cost for a more energy-efficient system that can save you energy and money.

Why get an HVAC Tune-up?

1. Prevent costly breakdowns by as much as 95%.
2. Improve your home's air quality.
3. Improve your home's comfort.
4. Help the environment.

For more information or to schedule your HVAC Tune-up visit [bgeSmartEnergy.com/ SummerTune](https://bgeSmartEnergy.com/SummerTune).

This program supports the EmPOWER Maryland Energy Efficiency Act. EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money. To learn more about EmPOWER and how you can participate, go to bgeSmartEnergy.com.

Spring savings tips

As the weather gets warmer, your energy usage may increase. Here are some simple steps to reduce usage and save at home:

SUNNY DAYS

Sunlight passing through windows heats your home and makes your A/C work harder. You can block this heat by closing your window blinds or drapes.

UNPLUG

Between work, school, and all the demands of the modern world, it can be tough to unplug from technology. Give yourself and your energy use a break by unplugging chargers, computers, and entertainment centers when not in use.

GET INSIGHTS

Keep track of your home's energy use with your BGE online account. Don't have an account? Get started at [bge.com/ MyAccount](https://bge.com/MyAccount).

Driving into the future with EVs

There are more electric vehicle (EV) models available than ever before and with possible tax credits or rebates on a new purchase, owning an EV could be in your future! BGE's online EV toolkit lets you compare your current car to any EV on the market and see how much you can save over the life of the vehicle when you switch to an electric model. Plug in your average monthly commute miles and see how much you'd save in fuel and maintenance costs each year. The average driver could see their fuel costs drop by 75%! Plus, BGE's public charging network makes it easy to charge up on-the-go, no matter where you're traveling in central Maryland.

Learn more about how an EV can save you money at [bge.com/ EVsmart](https://bge.com/EVsmart).
