

Bill Summary

Bryan Jr. Johnson
 4 Storeys Ct
 Baltimore, MD 21236
 Account # 9329254507
 Issued Date: July 10, 2024

Previous Balance	\$322.63
Payments Received July 3, 2024	-\$322.63
BGE Outstanding Balance	\$0.00
Electric	\$317.62
Total amount due by August 2, 2024	\$317.62

Payment received after August 2, 2024 will incur a late charge.
 A late payment charge is applied to the unpaid balance of your BGE charges. The charge is up to 1.5% for the first month; additional charges will be assessed on unpaid balances past the first month, not to exceed 5%.

The amounts shown in the circles reflect charges from this bill period.

We're here to help

BGE offers many types of assistance year-round. Use our Assistance Finder tool to get matched with the programs and benefits that help you get the most from your energy dollar. Get started today: [bge.com/ Help](https://www.bge.com/Help)

Hot days, cool choices: Energy-saving tips for warm weather

TAKE ADVANTAGE OF ENERGY SAVINGS DAYS.

You can earn \$1.25 in BGE bill credits for every kilowatt-hour of electricity that you reduce your electricity usage on an Energy Savings Day (2 p.m.—6 p.m.), compared to what you would normally use.

Clean or replace air filters

Savings estimate: \$85 a year.

Heating and cooling consume the most energy in the average home—up to 50% of total home energy use. By cleaning or replacing your filters, you can lower your heating and cooling system energy use by up to 15%.

Install window shades such as blinds or shutters

Savings estimate: \$50 a year.

If the sun creates overwhelming heat in your home during the warmer months, you can improve your comfort and lower your cooling costs by adding shading to your windows.

Use a programmatic thermostat

Savings estimate: \$180 a year.

By adjusting your thermostat 7-10°F for eight hours a day, you can save on heating and cooling costs.

Natural gas safety

BGE is committed to maintaining a safe and reliable gas system, which begins with helping our customers understand the importance of natural gas safety.

Ways to detect natural gas

Smell: BGE puts mercaptan, a safety additive in natural gas to give it a rotten egg odor and make it easier to detect.

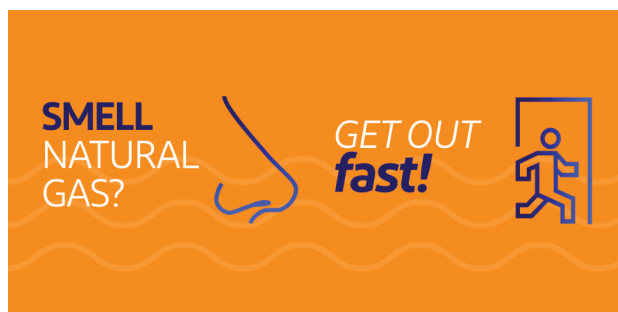

See: Look for dead vegetation in a thriving area, bubbling ground water, or blowing dust from a hole in the ground.

Hear: A blowing or hissing sound.

And remember if you smell natural gas, leave the area immediately and call BGE at **877.778.7798** or **800.685.0123**. Find out more by visiting [bge.com/ GasSafety](https://www.bge.com/GasSafety).

Digitally start, move, or stop your service

BGE customers can request service using one of the below methods:

- Submit a request online using the Start, Stop, and Move features on BGE.com.
- Use the BGE Mobile App, available for iOS and Android.

You can review your request's status and more information with our Start, Stop, or Move Tracker tool.

Get started today by visiting [bge.com/ Move](https://www.bge.com/Move).

Shift. Reduce. Save

You can enroll in **BGE's Time of Use rates** (Schedule RD), giving you an opportunity to save on your electricity bill. Here's how it works:

Rather than paying a flat rate for your electricity use, you pay a lower rate during off-peak hours and a higher rate during peak hours, except on designated National Holidays.

- Peak hours from October to May are **weekdays 6-9am and 5-9pm**.
- Peak hours from June to September are **weekdays 3-8pm**.

When you reduce your electricity usage during peak hours or shift it to off-peak hours, you can see savings on your electricity bill.

The more you shift your usage, the more you can save. You can switch back to the standard flat rate anytime.
