Supplier Message

Standard Offer

Your electricity price for Standard Offer service for the period of January 1, 2024 through January 31, 2024 is \$0.112850 per kWh.

About Your Energy Supply

You're on Standard Offer. Did you know you can choose your Energy Supplier? Versant Power does not supply energy, but provides billing & payment services on behalf of your electricity supplier.

Billing Terminology

kWh (kilowatt hour)

The amount of electricity you use is measured in kilowatt hours (kWh) by a meter. For example, a 100-watt light bulb used for 10 hours will consume 1,000 Watt hours, or one kWh.

Estimated Bill

If we are unable to obtain a scheduled meter reading, your bill will be estimated based on the amount of kWh consumed based on past usage.

Sales Tax Exceptions

Maine state sales tax does not apply for the first 750 kilowatt hours (kWh) of residential usage.

Late Payment

The amount not paid by the Due Date on the bill will be subject to a late payment fee of 0.949% on the unpaid balance.

Payment Arrangement

If you have trouble paying your bill, a payment arrangement may help. Please call customer service for more information.

Delivery Rates

Maine's rates are approved by the Maine Public Utilities Commission. Copies of our rate schedules are available online at www.versantpower.com

Distribution

This recovers the costs of the local system, poles, wires and substations, that delivers power from the transmission system to your home or business.

Transmission

This recovers the costs of the high-voltage system that transports bulk power.

Stranded Costs

These include the costs of energy resource obligations entered into before electric industry restructuring. Also included are costs and benefits related to more recent long-term contracts required through state policy, such as contracts with renewable generators.

Conservation

Efficiency Maine Trust was created by the Legislature to deliver energy efficiency programs and services. It is funded in part by Conservation, a fee on electricity use.

For further definitions on your energy bill terms, please visit us online at:

www.versantpower.com/residential/my-bill/understanding-your-bill/

January Rate Changes

Bangor Hydro District customers will see Standard Offer, Stranded Cost, Transmission and Distribution rate changes. Maine Public District customers will see Standard Offer, Stranded Cost, and Distribution rate changes. These are all effective January 1, 2024. Visit our website for details.

Your Supply Service

Your electricity is provided by suppliers licensed by the Maine Public Utilities Commission for electric energy and capacity. Customers can choose their supplier. For information on available electricity suppliers, selecting a supplier, or current rates, visit www.maine.gov/meopa

The Maine Public Utilities Commission administers competitive billing for Standard Offer Electricity Supply. Learn more by visiting www.maine.gov/meopa

**We're ready to respond to storms this winter.
Here's what you can do to prepare:**

- Stock up on flashlights and extra batteries, and charge devices and power banks in case of a power outage.
- If you use a generator, follow the supplied directions. Keep it dry, do not use in rain or wet conditions and do not touch it with wet hands.
- Consider leaving your faucets running at a slow stream to keep your pipes from freezing and bursting if you are able.

3 ways to save on electricity costs this winter

Insulate using clear plastic film on the inside of window frames throughout your home.

Weatherstrip your windows and doors to keep warm air in and cold air out.

Enroll in online services at versantpower.com to identify where you can save energy.

Are you signed up for our heat pump rate?

If you have a heat pump, **you could be eligible. Save money** this heating season. Call us to sign up: **207-973-2000**. If you're already enrolled in our heat pump rate, you do not need to call to renew.
