## Payment Arrangement Information

Your Total Account Balance is \$2,950.90

Your Regular Installment is \$232.00

To help pay down your balance and provide you with equal monthly payments, you are enrolled in a Special Payment Arrangement. Your Total Account Balance is the actual running balance on your account. To keep your arrangement current, please pay your fixed payment amount each month plus any other relevant charges indicated in the billing summary.

The term of your payment arrangement is through **November 25, 2024**.

Current Reading	Previous Reading
<b>15403</b>	<b>14532</b>
<b>Total kWh: 30 Day(s)</b>	
	<b>871</b>

## Supplier Message

### Standard Offer

Your electricity price for Standard Offer service for the period of January 1, 2024 through December 31, 2024 is \$0.107630 per kWh.

### About Your Energy Supply

You're on Standard Offer. Did you know you can choose your Energy Supplier? Versant Power does not supply energy, but provides billing & payment services on behalf of your electricity supplier.

## Billing Terminology

### kWh (kilowatt hour)

The amount of electricity you use is measured in kilowatt hours (kWh) by a meter. For example, a 100-watt light bulb used for 10 hours will consume 1,000 Watt hours, or one kWh.

### Estimated Bill

If we are unable to obtain a scheduled meter reading, your bill will be estimated based on the amount of kWh consumed based on past usage.

### Sales Tax Exceptions

Maine state sales tax does not apply for the first 750 kilowatt hours (kWh) of residential usage.

### Late Payment

The amount not paid by the Due Date on the bill will be subject to a late payment fee of 0.949% on the unpaid balance.

### Payment Arrangement

If you have trouble paying your bill, a payment arrangement may help. Please call customer service for more information.

### Delivery Rates

Maine's rates are approved by the Maine Public Utilities Commission. Copies of our rate schedules are available online at [www.versantpower.com](http://www.versantpower.com)

### Distribution

This recovers the costs of the local system, poles, wires and substations, that delivers power from the transmission system to your home or business.

### Transmission

This recovers the costs of the high-voltage system that transports bulk power.

### Stranded Costs

These include the costs of energy resource obligations entered into before electric industry restructuring. Also included are costs and benefits related to more recent long-term contracts required through state policy, such as contracts with renewable generators.

### Conservation

Efficiency Maine Trust was created by the Legislature to deliver energy efficiency programs and services. It is funded in part by Conservation, a fee on electricity use.
