A CLEAR GAS METER IS A SAFE GAS METER.

If it snows on your meter, brush it off gently to avoid icy build-up that can dangerously interfere with the flow of natural gas to and from your meter. Additionally, carefully shovel around your meter to maintain a clear path to allow quick access in an emergency.

Learn more at [xcelenergy.com/Safety](https://www.xcelenergy.com/Safety).

INFORMATION ABOUT YOUR BILL

We have updated the Resource Adjustment line item on your bill to reflect changes in the State Energy Policy (SEP) portion of the Resource Adjustment, which recovers the costs of State energy-related mandates. The electric SEP portion of the Resource Adjustment increased to \$0.000258 per kilowatt-hour (kWh).

For an average residential customer, 49% of your bill refers to power plant costs, 11% to high voltage line costs and 40% to the cost of local wires connected to your home.

DON'T WAIT! ENERGY ASSISTANCE AVAILABLE NOW!

Do you know someone who may need help paying their energy bills? Thousands of qualified households have benefited from Home Energy Assistance programs in the past year. Energy Assistance is used to lower the burden of monthly energy costs. Funds can be used for heating and electric costs as well as energy crisis situations.

Xcel Energy wants to connect our customers with all the resources available. To learn more about energy assistance programs available in your area, please scan the QR code.

TO SMALL POWER PRODUCERS AND COGENERATORS

Federal and state laws require Xcel Energy and other utilities to buy all electric energy that qualified small power producers and cogenerators offer for sale. Qualified facilities may be interconnected with our system for this purpose. However, in Minnesota Xcel Energy is not required to make purchases from qualified facilities which are larger than 5 megawatts.

Small power producers generate electricity using a renewable resource or waste product as fuel: garbage, peat, wood by-products, wind, water or sun.

Cogenerators produce sequentially both electricity and useful heat energy. These facilities may use a non-renewable fuel, such as oil, natural gas or coal.

An example is a paper mill that makes steam for electrical generation and, secondarily, for paper production.

The Minnesota Public Utilities Commission (MPUC) regulates the purchase price and service interconnection requirements between qualifying facilities and utilities. The MPUC also resolves disputes that might arise.

Customers who are interested in parallel generation options may obtain Xcel Energy's interconnection guidelines materials for information on interconnection requirements.

Visit [xcelenergy.com/HowToInterconnect](https://www.xcelenergy.com/HowToInterconnect) to find information about all interconnections. For specific on-site solar and other distributed generation interconnection application details, email SolarProgramMN@xcelenergy.com. For community solar garden information, email SolarRewardsCommMN@xcelenergy.com.

To find out more about qualifying facilities and requirements for interconnection, please call **800-895-4999** (for residential customers) or **800-481-4700** (for all other customers).

GENERAL INFORMATION

City Fees

A fee some cities impose that Xcel Energy collects from customers and pays directly to the city.

Electronic Check Conversion

When you pay your bill by check, in most cases Xcel Energy will use your check information to make a one-time electronic debit from your checking account on the day we receive your check. There are no fees for this electronic conversion. In all other cases we will process your check.

Environmental Information

Fuels used to generate electricity have different costs, reliability and air emissions. For more information, contact Xcel Energy at 800.895.4999 or online at xcelenergy.com. You can also contact the Minnesota Department of Commerce at <http://mn.gov/commerce/> or the Minnesota Pollution Control Agency at <https://www.pca.state.mn.us/quick-links/electricity-and-environment>.

Estimated Bills

Xcel Energy attempts to read meters each month. If no reading is taken, Xcel Energy estimates your month's bill based on your past use.

Governing Regulatory Agency

The Minnesota Public Utilities Commission regulates this utility and is available for mediation. MPUC: 121 7th Place E., Suite 350, St. Paul, MN 55101-2147 – <http://mn.gov/puc/>.

Late Payment Charge

Xcel Energy will assess a late payment charge on unpaid amounts two working days after the due date. The late payment charge is 1.5% monthly or \$1, whichever is greater. No late payment charge will be assessed if the unpaid amount is less than \$10.

Payment Responsibility

If the name on the front of your bill is not that of a person or business who has payment responsibility, call Xcel Energy at 800.895.4999.

Further information is available to customers upon request.

ABOUT YOUR ELECTRIC RATES

Affordability Charge

A surcharge to recover the costs of offering bill payment assistance and discount programs for low-income customers.

Basic Service Charge

Fixed monthly charge for certain fixed costs (metering, billing, maintenance, etc.)

Conservation Improvement Programs

Minnesota law requires Xcel Energy to invest in programs that help customers save energy.

Decoupling Adjustment

A credit or surcharge to residential and non-demand business customers that separates the recovery of fixed costs from sales, adjusted annually based on the average use of each of these two customer classes.

Demand Charge

Charge to commercial and industrial customers for the fixed costs of the electric capacity required to meet the peak electric loads on Xcel Energy's system. The charge, which is adjusted seasonally, applies to the highest 15 minute kW demand during the billing period.

Energy Charge

Charge per kWh of electricity usage to recover the variable costs of producing energy.

Fuel Cost Charge

Charge per kWh to recover the costs of fuel needed to run Xcel Energy's generating plants, as well as the cost of purchasing energy from other suppliers.

kWh

One kilowatt-hour (kWh) is a unit of electrical usage. One kWh equals 1,000 watts of electricity used for one hour. This is enough electricity to light a 100-watt light bulb for 10 hours.

Meter Reading Information

Smart meters track your energy use in 15-minute intervals. Your bill is based on the total kWh you used in each 15-minute interval in the billing period.

Mercury Cost Recovery

Minnesota law allows Xcel Energy to recover costs related to reducing Mercury emissions at two of Xcel Energy's fossil fuel power plants.

Renewable Development Fund

Minnesota law requires Xcel Energy to allocate money to support research and development of renewable energy technologies, grid modernization, and other projects that increase system efficiency.

Renewable Energy Standard

Minnesota law allows Xcel Energy to recover the costs of new renewable generation.

Resource Adjustment

This includes costs related to: Conservation Improvement Programs, Mercury Cost Recovery, Renewable Development Fund, Renewable Energy Standard, State Energy Policy, Transmission Cost Recovery.

State Energy Policy

Minnesota law allows Xcel Energy to recover costs related to various energy policies approved by the Legislature.

Transmission Cost Recovery

Minnesota law allows Xcel Energy to recover costs associated with new investments in the electric transmission system necessary to deliver electric energy to customers.

Windsources®

Windsources is an optional program where you choose how much wind energy you would like to support. You can choose a fixed number of Windsources blocks (100 kWh each) or choose a 100% Windsources option.

ABOUT YOUR NATURAL GAS RATES

Basic Service Charge

Monthly charge for certain fixed costs (metering, billing, maintenance, etc.)

Charge per therm

Charge to recover the cost of natural gas purchases from wholesale suppliers and delivered to Xcel Energy's distribution system via pipeline. This charge is adjusted each month.

Conservation Improvement Programs

Minnesota law requires Xcel Energy to invest in programs that help customers save energy.

Distribution Charge

Charge per therm that covers only the delivery costs of natural gas to a home or business through our distribution system. It does not include the charges for the natural gas itself.

Gas Affordability Program

A surcharge to recover the costs of offering a low-income customer co-pay program designed to reduce natural gas service disconnections. Billed to all non-interruptible customers.

Gas Utility Infrastructure Costs

Minnesota law allows Xcel Energy to recover MPUC-approved costs of assessments, modifications, and replacement of natural gas facilities as required to comply with state and federal pipeline safety programs.

Heat Content Adjustment

Corrects for variances in the heating capability of natural gas, and the adjustment varies monthly. The higher the heat content, the lower the volume of natural gas needed to provide the same heating.

New Area Service/Extension Surcharge

Monthly charge for extending natural gas service to areas where the cost would otherwise have been prohibitive under Company's present rates and service extension policy.

Pressure Correction Adjustment

Adjusts for variances in the amount of natural gas measured by different types of meters due to pressure differences in the natural gas delivered to a service.

Resource Adjustment

This includes costs related to Conservation Improvement Programs, Gas Utility Infrastructure Costs and State Energy Policy Rider.

State Energy Policy

Minnesota law allows Xcel Energy to recover costs related to various energy policies approved by the Legislature.

Therm

A therm is a unit of heating value equal to 100,000 British Thermal Units (BTUs). Since natural gas meters measure the volume of natural gas consumed in cubic feet, the Heat Content Adjustment is used to determine how much heat, in therms, is contained in the volume consumed.

PAYMENT OPTIONS *Learn more at xcelenergy.com/payment*

Standard Payment Options: (No fees apply)

- **My Account/eBill/Mobile App** — View/pay your bill electronically, view energy usage and access account information.
- **Auto Pay** — Automatically pay your bill directly from your bank account.
- **Pay By Phone** — Make your payment by phone from your checking or savings account by calling 800.895.4999.
- **Pay By Mail** — Return the enclosed envelope and attached bill stub with your payment. Apply proper postage.
- **Bank View and Pay** — View and pay your bills online through a third-party vendor.

Other Payment Options (Third-party fees will apply. Xcel Energy does not collect nor benefit from these fees.)

- **Credit/Debit Card Payment** — Pay with your credit or debit card electronically in My Account/eBill/Mobile App, or by calling 833.660.1365. A processing fee is charged for each credit/debit card payment.
- **Pay Stations** — Pay your bill in-person at a location near you. A processing fee is charged for payments made at a pay station.
