### GLOSSARY

**Gas Cost Adjustment (Gas Cost Adj or Natural Gas):** recovers the cost of natural gas purchased and delivered to you, including natural gas fuel, upstream transportation and storage services. We pass on the wholesale cost to customers without a markup. Costs are adjusted on a quarterly basis to reflect market conditions.

**General Rates:** your base rate charge, which includes the Service and Facility Charge, metering charges, a Demand Charge (if applicable), plus either an Energy Charge for electric service or the Usage Charge for gas service, as applicable.

**General Rate Schedule Adjustments (GRSA):** a percentage amount of your bill calculated for base rate charges, excluding the Service and Facility Charge for gas customers, the Energy or Usage Charge and the Demand or Capacity Charge. The adjustment can be positive or negative and is applied to your electric and/or natural gas bill.

**Interstate Pipeline:** reflects Xcel Energy's payments to interstate pipelines and storage facility operators to deliver natural gas into Xcel Energy's gas system. The Federal Energy Regulatory Commission regulates these upstream services and the rates charged to Xcel Energy.

**Kilowatt Hour (kWh):** Measures the amount of electricity you use.

**Late Payment Charge:** we assess a late payment charge on any unpaid balance exceeding \$50.00. For residential customers, a late payment charge of 1% per month is applied. For commercial customers, a 1.5% late payment charge will be assessed.

**Load Meter Charge:** a flat monthly charge for those with customer-owned generation in parallel with Xcel Energy's system. This fee is for the cost of the meter needed for these accounts.

**Natural Gas:** reflects our cost to purchase natural gas fuel at market prices as approved by the Colorado Public Utilities Commission.

**Production Meter Charge:** a flat monthly charge for customers who have on-site power generation, like rooftop solar, and are connected to Xcel Energy's system. This fee is for the cost of the meter needed for these accounts.

**Purchased Capacity Cost Adjustment (Purchased Cap Cost Adj):** the cost to purchase electric generation from other suppliers.

#### Renewable Energy Standard Adjustment

**(Renew Energy Std Adj):** a base rate charge which represents 1% of an electric bill and funds renewable energy programs as required by Colorado law under which utilities must generate or purchase increasing portions of their electricity from sun, wind or biomass.

**Revenue Decoupling Adjustment:** supports a program designed to encourage conservation without penalizing the energy provider for the reduction of electricity use. Adjusted quarterly, customers will either see a bill credit or a surcharge not to exceed 3% of your overall bill.

**Service & Facility Charge:** a flat monthly charge for the meter on your home, having the meter read, billing support and customer service needs.

**Time-of-Use Rates:** electricity use charges for customers on our time-differentiated pricing plan. Electricity pricing varies depending on when you use it. The On-Peak period is 3-7 p.m., weekdays except holidays; Mid-Peak is 1-3 p.m., weekdays except holidays; Off-Peak is all other hours.

**Therm:** Measures your natural gas use. One therm is equal to 100 cubic feet of natural gas. A dekatherm is 10 therms.

**Therm Multiplier:** natural gas usage is measured in therms. This is the conversion from the volume of natural gas (cubic feet) to energy use (therms).

**Transmission Cost Adjustment (Trans Cost Adj):** recovers transmission investments for infrastructure to carry electricity from a power plant to your home and business that results in a net increase in transmission capacity or are part of an approved Wildfire Mitigation Plan. Also recovers distribution costs pursuant to Colorado Senate Bill 24-218.

**Transportation Electrification Plan Adjustment (Trans Elec Plan):** funds programs to help customers unlock the benefits of electric transportation.

**Usage Charge:** this charge covers the costs for providing natural gas service, including moving natural gas through pipelines and storage to your home or business, that are not recovered through other charges.
