Supplier Message

Standard Offer

Your electricity price for Standard Offer service for the period of January 1, 2025 through December 31, 2025 is \$0.116530 per kWh.

About Your Energy Supply

You're on Standard Offer. Did you know you can choose your Energy Supplier? Versant Power does not supply energy, but provides billing & payment services on behalf of your electricity supplier.

Billing Terminology

For further definitions on your energy bill terms, please visit us online at:

<https://www.versantpower.com/accounts-services/understanding-your-bill>

kWh (kilowatt hour)

The amount of electricity you use is measured in kilowatt hours (kWh) by a meter. For example, a 100-watt light bulb used for 10 hours will consume 1,000 Watt hours, or one kWh.

Estimated Bill

If we are unable to obtain a scheduled meter reading, your bill will be estimated based on the amount of kWh consumed based on past usage.

Sales Tax Exceptions

Maine state sales tax does not apply for the first 750 kilowatt hours (kWh) of residential usage.

Late Payment

The amount not paid by the Due Date on the bill will be subject to a late payment fee of 0.949% on the unpaid balance.

Payment Arrangement

If you have trouble paying your bill, a payment arrangement may help. Please call customer service for more information.

Delivery Rates

Maine's rates are approved by the Maine Public Utilities Commission. Copies of our rate schedules are available online at [versantpower.com](https://www.versantpower.com).

Distribution

This recovers the costs of the local system - including poles, wires, and substations - used for delivery of power from the bulk grid system to your home or business.

Transmission

This recovers the costs of the high-voltage system that transports bulk power.

Stranded Costs - Volumetric

These include all remaining costs from electric industry restructuring in 2000, including power purchase agreements, Maine Yankee, and other costs. For some non-residential customers, these also include the variable component of the public policy charge.

Public Policy Charge - Fixed

This is a fixed charge that recovers certain costs of programs required by state policy, including the net energy billing program, low-income assistance programs, and more recent long-term power purchase agreements.

Conservation

Efficiency Maine Trust was created by the Legislature to deliver energy efficiency programs and services. It is funded in part by Conservation, a fee on electricity use.

Your Supply Service

Your electricity is provided by suppliers licensed by the Maine Public Utilities Commission for electric energy and capacity. Customers can choose their supplier. For information on available electricity suppliers, selecting a supplier, or current rates, visit www.maine.gov/meopa

The Maine Public Utilities Commission administers competitive billing for Standard Offer Electricity Supply. Learn more by visiting www.maine.gov/meopa

Standard Offer electricity supply is provided as follows:

Small Class

New Brunswick Energy Marketing Corp. 100%
