Save energy and money this season

Colder weather is here, and now is the time to get your home ready for the heating season. Staying warm and cozy at home can increase your energy bills, but luckily it doesn't have to. Simply upgrade to energy-efficient heating equipment around your home and keep those winter energy bills low.

Visit xcelenergy.com for seasonal efficiency tips and to learn more about Xcel Energy's energy efficiency programs.

STAY AWAY. STAY SAFE.

Always assume that electric lines and equipment are energized, even if they do not appear to be "live". Stay at least 30 feet away from downed lines.

Learn more at xcelenergy.com/Safety.

WE ALL HAVE OUR GHOSTS. THEY'RE CALLED PHANTOM POWER.

Phantom power is the drain that electronics, like a computer, have on energy even while they're powered off. So unplug, or use a power strip.
