Colorado Energy Plan Adjustment

(Colo Energy Plan Adj): funds voluntary early retirement for Xcel Energy's coal-fired power plants as part of our plan to cut carbon emissions by 2030 and provide net-zero energy by 2050.

Demand Charge: recovers costs to produce and deliver power to you, including the costs of poles and wires, transmission and distribution facilities in the power grid.

Demand Peak Day Quantity (Demand PDQ): applies to large commercial and industrial customers only. It's a measurement of their highest daily use of electricity during a monthly billing cycle.

Demand-Side Management Cost Adjustment

(Demand Side Mgmt): recovers costs of energy efficiency and conservation programs that encourage customers to reduce their energy use. If you receive electricity and natural gas from us, you will see two charges.

Energy Assistance Charge: Required by House Bill 21-1105, we collect and remit this monthly charge to Energy Outreach Colorado for bill assistance for income-qualified customers. If you receive electricity and natural gas from us, you will see two charges. If you're struggling to pay your utility bills, you might qualify for exemption from a monthly charge related to energy assistance and be eligible for utility bill payment assistance. Please call 1-866-HEAT-HELP to see if you qualify. You may request to opt out of this charge by calling 800-895-4999.

Energy Charge: the variable costs of producing energy not collected through quarterly commodity adjustments.

Franchise Fee: pays cities and counties for the right to use public streets to provide utility services. We collect this as a surcharge that is passed to your city and county.

Gas Cost Adjustment (Gas Cost Adj or Natural Gas): recovers the cost of natural gas purchased and delivered to you, including natural gas fuel, upstream transportation and storage services. We pass on the wholesale cost to customers without a markup. Costs are adjusted on a quarterly basis to reflect market conditions.

General Rates: your base rate charge, which includes the Service and Facility Charge, metering charges, a Demand Charge (if applicable), plus either an Energy Charge for electric service or the Usage Charge for gas service, as applicable.

General Rate Schedule Adjustments (GRSA):

a percentage amount of your bill calculated for base rate charges, excluding the Service and Facility Charge for gas customers, the Energy or Usage Charge and the Demand or Capacity Charge. The adjustment can be positive or negative and is applied to your electric and/or natural gas bill.

POWER SUPPLY MIX

Our Colorado energy mix includes natural gas, coal and hydroelectric power, along with wind and solar power generated by Xcel Energy and through our renewable energy programs: Renewable*Connect, Solar*Rewards and Solar*Rewards Community.

2025 Colorado energy mix

PRICE COMPONENTS

Percentage-based price components apply to an average customer's monthly electric bill and may differ when applied to individual customers.

Power supply costs include all purchased power and energy source costs. For Xcel Energy-owned generation plants, these costs also include plant labor and depreciation, allocated overhead, taxes and a profit component. **Power delivery** costs include labor associated with transmission and distribution facilities, metering, billing, customer service, allocated overhead, taxes and a profit component. For example, if your residential bill is \$98.21, then about 56% (or \$54.76) of your bill is for the electricity itself, and about 44% (or \$43.45) covers the cost of having the electricity delivered to your home. Learn more about where your electricity comes from at xcelenergy.com.
